

Dr. AKhtar Rasool Mir

Smt. Ketharaju Venkata Subbamma – Sri Subba Rao Medal

Dr. Akhtar Rasool Mir is presently working as an Assistant Professor in the Department of Earth Sciences, University of Kashmir. Dr. Akhtar Rasool Mir did B.Sc. from Sri Pratap College, Srinagar in 2001 and M.Sc. in Applied Geology from the Department of Geology & Geophysics (Currently named as the Department of Earth Sciences), University of Kashmir, Srinagar in 2004. He has qualified CSIR-NET, securing 12th Rank. He was awarded Ph.D. degree in 2010 from Aligarh Muslim University, Aligarh on the research topic “Geochemistry and Tectonic Significance of Newer Dolerite dykes in parts of Singhbhum Craton, Eastern India”, under the supervision of Prof. Shabber H. Alvi (Department of Geology, A.M.U., Aligarh) and Dr. V. Balaram (Geochemistry Division, CSIR-N.G.R.I., Hyderabad). Till date he has published several research papers in reputed international and national SCI journals such as International Geology Review, Arabian Journal of Geosciences, Acta Geochemica, Current Science, Himalayan Geology etc. He has served as a reviewer for internationally reputed journals like Journal of African Earth Sciences, Himalayan Geology etc. Dr. Akhtar Rasool Mir has worked as a contractual Lecturer from 2011 to 2014 in the Department of Earth Sciences, University of Kashmir. In December, 2015 he has joined the Department of Geology, Leh Satellite Campus, University of Kashmir as an Assistant Professor. Dr. Akhtar R. Mir is a member in various organizing committees of National and regional Conferences, Workshops and Seminars which have been held at the University of Kashmir and has presented his research work in various national and international Conferences. Presently he is involved in studying the Evolution of Singhbhum Craton, Eastern India and Petrogenesis of Panjal Traps of North India. His research work involves petrology and geochemistry of igneous rocks and sedimentary rocks.
